### About This Content

### The City That Dripped Blood

*Temelpa, an ancient walled city on a forgotten trade route, thought to be abandoned ages ago, and now, the adventurers find themselves besieged within.*

*Unable to leave their refuge, the adventurers will quickly discover the city is inhabited, not deserted as initially believed, by an ancient society. They will soon be embroiled in the affairs of a twisted caste system built on servitude and cannibalism and headed by an inter-dimensional vampiric overlord.*

*This open-ended adventure allows the GM to unleash an array of unique monsters, factional power struggles, and intriguing plots upon the characters as they fight and scheme to stay alive, entrapped in a hostile city where they are viewed as useful pawns or a tasty exotic meal.*

*Can the characters hold out until the siege is broken and escape with their lives? Will they champion the cause of the downtrodden and upend the social order? Or will they be the main course for the next cannibalistic feast?*
